Boat Non-Skid Deck Paint

Marine Grade Epoxy with Super Tough Binder (premixed) with Grit. Durable Non-Slip Textured Coating for Treated Aluminum, Fiberglass, and properly primed Wood and Metal Surfaces.

Designed for easy do-it-yourself non slip paint for boats, marine paint for aluminum, wood deck coating, pontoon boat, house boat, Jon boat, Duck boat, Sail boat, Power boat, and metal trailer.

Monster Grip Paint is an ideal non-skid protective top coat for areas where water is present or slippery surfaces exist. Easy to apply with spray can, quart, gallon painting using nylon brush, or 3/8" inch (low nap) roller. Providing a durable, textured non-slip deck paint that is attractive and will help prevent slip and fall accidents before they happen.

Non Skid Paint (one part) marine epoxy is eco-friendly, water reducible, and will not harm the environment when used as directed. Premixed anti skid grit texture has no sharp edges and is NOT abrasive to bare feet.

Extra Grit Additive is available for applications needing an increased traction texture such as stair tread, and incline ramp.

PREVENT ACCIDENTS BEFORE THEY HAPPEN
